RAM

THE

RAM 1500

Official European Importer

STRENGTH & CAPABILITY

THE STRONGEST RAM 1500 EVER

Ram 1500: 98% of the steel used in the frame is high-strength steel, as is 38% of the steel used in the cab and box. The result is a reduction in weight without the sacrifice of durability and toughness Ram truck drivers depend on. Aluminum is used in the hood and tailgate to further reduce weight while maintaining structural integrity.

HARDCORE CAPABILITY

The Ram 1500 was built to pull heavy loads, haul supplies over gravel roads and plow through the elements. Count on it to haul up to 850 kg max payload or tow up to 3,500 kg, with complete confidence. THE HEMI™ V8 offers e-Torque Technology™ to help improve both performance and fuel efficiency. Opt for the Ram Rebel® or the available Off-Road Group for next-level off-road performance. The available Active-Level™ Four-Corner Air Suspension offers automatic load leveling to help improve stability and maintain exceptional drive quality.

THE 5.7 HEMI® V8
395HP 556NM
AND WITH eTORQUE
ENGINE A SUPPLEMENTAL OF 175 NM

THE TECHNOLOGY OF eTORQUE

The Ram Brand is known for technological leadership, and the addition of eTorque proves it. This mild hybrid system incorporates a number of technologies with the legendary 5.7L HEMI V8, including regenerative braking, Stop/Start capability, a 48-volt lithium-ion battery pack and an on-board 12-kw motor/generator. The electric motor serves to provide supplemental power during vehicle launch and helps smooth out transmission upshifts. Stop/Start helps improve fuel efficiency with seamless engine on/off operation, while regenerative braking recovers and converts energy during braking.

THE ADVANTAGES OF eTORQUE

The incorporation of available e-Torque and its components offers significant advantages across the board. The electric motor enables longer 4-cylinder operation of the HEMI V8 Multi-Displacement System (MDS)/Fuel Saver Technology for additional fuel-efficiency benefits. Stop/Start capability also contributes to improved fuel efficiency, by up to 3.3%. Regenerative braking utilizes the on-board electric motor as a generator, converting energy to recharge the battery system. The Stop/Start System is completely transparent, and a dash-mounted system-disable switch lets the driver turn it off if desired.

THE LEGEND EVOLVES

AGAIN
SUPERCHARGED 6.2L HEMI® V8

4.5 SEC 0-97KM/H

702 HP MAX POWER

881 NM MAX TORQUE

160 KM/H TOP SPEED*

THE MOST POWERFUL FACTORY-INSTALLED ENGINE EVER IN A PICKUP

Only available on the Ram 1500 TRX, the legendary 6.2L Supercharged HEMI V8 engine ensures this monster can charge from 0-60 mph in just 4.5 seconds. The supercharger provides near-instantaneous torque, has a maximum speed of 14,600 rpm and produces 11 psi of boost. The engine alone received more than 10 additional features compared to the 6.2 Supercharged HEMI V8 found in other FCA US LLC vehicles to give TRX the power required to blast over sandy terrain.

A high-performance induction system feeds massive amounts of air to the supercharger. A TRX specific power-domed aluminum hood helps clear the engine's extra height. The forged-steel crankshaft is able to withstand firing pressures equivalent to five family sedans standing on each piston every two revolutions.

* Top Speed is limited by the tires.

BEST-IN CLASS WHERE IT COUNTS

The better the air management, the more efficient the pickup—and Ram 1500 rules. The Active Front Air Dam, a new roofline that better directs airflow and a new aluminum tailgate with spoiler work together to deliver exceptional aerodynamics.

ALL-AROUND EFFICIENCY

ACTIVE GRILLE SHUTTERS

Standard on all KWA models, Active Grille Shutters instantly adapt to speed, load and engine needs to provide the ideal engine cooling—while simultaneously reducing aerodynamic drag.

AERO ROOF SHAPE

An all-new exterior design starts with a longer Crew Cab wheelbase, muscular fenders and a revised roofline that better directs airflow back to the rear spoiler. The larger aero roof makes way for the all-new available dual-pane sunroof.

NEW TAILGATE DESIGN

An all-new aluminum tailgate with integrated spoiler makes Ram 1500 more aerodynamic while giving exterior lines a seamless and continuous flow. The new available "Tailgate-ajar" notification system alerts you if the tailgate is not completely closed. Opening the tailgate is also easier thanks to available dampening and key fob control.

ACTIVE AIR DAM

This asset automatically deploys to reduce the amount of aerodynamic drag, which simultaneously improves handling while contributing to reduced fuel consumption.

THE STRONGEST ENGINEERED TO PERFORM

NEW ELECTRONIC PARKING BRAKE

Five operational modes, including Safe Mode and Drive-Away Release.

STRONGER ALL AROUND

Extensive use of high-strength steel makes this the toughest Ram 1500 ever.

HEAVY-DUTY SHOCKS

Twin-tube, with Frequency Response Damping to enhance ride quality for both on and off-road driving.

SIDE-IMPACT DOOR BEAMS

Reinforce the protection against potential side impacts.

PROGRESSIVE-RATE REAR SPRINGS

Adapt to handle payload while maintaining a level ride and excellent ride quality.

REAR AXLE THERMAL MANAGEMENT SYSTEM

This new available technology manages viscosity to help enhance fuel efficiency.

THE START: A HIGH-STRENGTH STEEL FRAME

Tough starts with the foundation, and the Ram 1500 is built to last, with 98% of the steel used in the frame comprised of high-strength steel—while still achieving a 45 kg weight reduction.

Frame construction permits notable secondary improvements. Tow hooks attached to the front are outwardly mounted, with a weight-efficient, closed-loop design for improved strength. A tow hitch receiver mounted to the rear of the frame is standard on all models.

NEW AXLES SHOWCASE STRENGTH AND TECHNOLOGY

Ride strong. Ram truck axles take capability to the next level.

Ram truck engineers refused to compromise, choosing a new 6-lug wheel design and a 9.25-inch (235 mm) rear axle, cutting to haul up to 850 kg max payload or tow up to 3,500 kg. The new electronic parking brake relies on axle modifications for integrated caliper ears, along with new viscosity lube.

RAM 1500 EVER

A STRONG FOUNDATION

98% of the steel used in the frame is high-strength steel.

DYNAMIC FRONT CRUMPLE ZONES

Redesigned to handle greater impact load and absorb more energy.

TIRE BLOCKER

Offers further protection in the event of a frontal crash. Driver and passenger side.

LARGER BRAKE ROTORS

Front and back, they fully measure up—nearly 380 mm.

SPLAYED FRAME RAILS

Direct impact energy away from the cabin and to the frame rails.

THE FOUR-CORNER AIR SUSPENSION SYSTEM

Completely unique to the light-duty segment, the automatic or driver-operated Active-Level™ Four-Corner Air Suspension System is available on all trim levels. The system has been modified for Ram 1500, now with a redesigned air supply unit in a single unit to increase capability and reduce weight. It's also been retuned for the new, lighter-weight frame and chassis components.

The five operational modes include two Off-Road heights, Aero Mode, Normal Ride height and the Entry/Exit Mode.

FRONT AND REAR SUSPENSIONS

A new front suspension in 4x4 configuration. Among the features: a repositioned heavy-duty stabilizer bar; new heavy-duty bearings for available 22-inch wheels; a new lightweight aluminum lower control arm and new low-drag 4x4 bearings.

The multilink coil spring rear suspension stands apart with its coil springs and multiple trailing links, progressive-rate rear springs, a heavy-duty stabilizer bar and lightweight aluminum rear shocks. Taken together, the suspensions on Ram 1500 deliver complete comfort and confidence.

3.500 KG MAX TOWING

TOW WITH CONFIDENCE

This is a full-size truck with full-size towing capability. Outfit your Ram truck with the available legendary 5.7 HEMI® V8 powerhouse. The result is towing capability that delivers one of the best-in class V8 towing: up to 3.500 kg of unbridled power that takes on the toughest towing assignments.

THE AVAILABLE AIR SUSPENSION SYSTEM SIMPLIFIES BALL/HITCH ALIGNMENT, COUNTERACTS WEIGHT FROM TRAILERING/HAULING, MAINTAINS AN EVEN AND LEVEL PROFILE WHEN LOADED, AND KEEPS RAKE CONSTANT FROM THE FRONT END TO THE REAR OF THE TRAILER.

ACTIVE-LEVEL TECHNOLOGY AT WORK: IT AUTOMATICALLY KICKS IN WHEN WEIGHT IS ADDED TO THE BED, MAINTAINING A CONSTANT AND LEVEL PROFILE.

850 KG MAX PAYLOAD

BUILT TO DO THE JOB RIGHT, EVERY TIME.

The reduced weight of the Ram 1500 helps to increase payload capacity, which allows you to make every load count. The Ram 1500 puts stunning hauling capability at your fingertips, delivering up to 850 kg of brute carrying strength along with a ride that puts comfort in the same league as capability.

Add further hauling assets—like the available RamBox® Cargo Management System, shown here—and you've got what it takes to get the job done.

Properly secure all cargo.

SAFETY WHERE IT MATTERS MOST:

LANESENSE® LANE DEPARTURE WARNING (LDW)¹

Ram 1500 can read the road. Mounted on the external sideview mirrors, cameras can identify road lines, determine where the vehicle is and monitor motion. Should movement onto either line occur without use of the turn indicator, the system will warn the driver and apply torque to the steering wheel to correct the movement. If no action corrects the drift, the system will even automatically align the vehicle back into its correct lane position.

NEW ADAPTIVE CRUISE CONTROL (ACC) WITH STOP AND GO²

Think cruise control that's smarter than ever. When the lanes ahead are clear, this available system maintains the set speed of travel. When traffic slows, it will automatically adjust to a safe distance selected by the driver. And, while most ACC² systems operate only down to 32 km/h, our system operates down to 0 km/h, virtually stopping the vehicle—then reengaging back to safe-range speeds as traffic begins to move again. (Note that the system does not perform “panic stops” at speed.)

FORWARD COLLISION WARNING (FCW) PLUS³

This available asset incorporates Grade Braking to control the transmission and automatically downshifts to maintain selected speed and distance. The system operates independent of the ACC² system, notifies the driver if the vehicle is too close to a preceding vehicle, uses audible/visual warnings and will brake the vehicle to 0 km/h if the driver does not respond.

BLIND SPOT MONITORING (BSM)⁵ WITH TRAILER DETECTION⁴ & REAR CROSS-PATH DETECTION⁴

This available asset monitors the “blind spots” on each side of the vehicle, utilizing sensors in each of the side mirrors. The system provides audible chimes and/or visual icons, informing the driver when changing lanes, passing others or being passed. Trailer Detection⁴ automatically senses and accounts for the length of the trailer. When in Reverse and vehicles and/or other objects are in perpendicular relationships to your Ram pickup, dual wide-band radar sensors let you know, using illuminated icons in the outside mirrors and driver-selected chimes.uses audible/visual warnings and will brake the vehicle to 0 km/h if the driver does not respond.

PARALLEL AND PERPENDICULAR PARK ASSIST⁴

Ever-more-sophisticated sensors give Ram 1500 superb capability. Available and new Parallel and Perpendicular ParkAssist system⁴, a welcome addition to the ParkSense® Front and Rear Park Assist system.

OVER 100 AVAILABLE SAFETY & SECURITY FEATURES

ALL AROUND YOU

FEATURES AVAILABLE:

THE NEW 360° SURROUND-VIEW CAMERA⁴

Depending on the model and the options and packages selected, you can bring 360-degree awareness to the drive. Credit the smart combination of strategically positioned sensors that work with cameras mounted in the grille, side mirrors and rear.

BRAKE ROTORS⁴

Confident stopping power comes from a new brake system. The new brake rotors have been upgraded to 380 mm in diameter fore and aft, sharply reducing 0-100 Km/h stopping distances and improving performance.

DIGITAL REAR VIEW MIRRORS

An LCD monitor displays real-time video that helps the driver see behind the vehicle. Buttons on the mirror adjust brightness and shift the displayed image up down for customized viewing.

HEAD UP DISPLAY

The fully customizable Heads-Up Display (HUD) projects important stats like km/h, turn-by-turn navigation and incoming calls, directly on the windshield.

TECHNOLOGY & COMFORT

TECHNOLOGY AT THE TOUCH OF YOUR FINGER

Truck owners demand the best technology and the Ram 1500 delivers: the available 12-inch touchscreen media center and the available powerful audio system from Harman Kardon®—with a 900-watt amplifier and 19 speakers.

LUXURY DEFINED BY COMFORT, SPACE AND SILENCE

Luxury means having a quiet, smooth and supremely comfortable ride. Ram 1500 achieves it with a multilink coil spring rear suspension, a new Crew Cab that adds 10 centimeters to the interior length and provides increased rear leg room, and available reclining rear seats—all topped off with enhanced interior background noise dampening. Available also dual-panel sunroof.

The picture shows a Rebel equipped with the G/T Package

Uconnect[®]

TECHNOLOGY

FOR THE REAL

**COUNT ON RAM 1500 TO GIVE YOU
THIS MUCH TOUCHSCREEN.
THIS MUCH VERSATILITY.
THIS MUCH TECHNOLOGY.
THIS MUCH CAPABILITY.**

Available features; see dealer for complete details.

CUSTOMIZE THE DISPLAY TO BEST SERVE YOUR NEEDS. INTUITIVE UCONNECT® TOUCHSCREEN LETS YOU COMMUNICATE, NAVIGATE AND STAY ENTERTAINED.⁷⁻⁸

LISTEN to music, talk shows, and sports. Turn your time on the road into hours of entertainment.

DISCOVER new places, the best shopping, entertainment and restaurants from the Uconnect® smartphone app, then easily send the address to your vehicle.

SPEAK UP and be heard, send and receive calls and texts⁷ while driving safely with hands-free phone capability.

NAVIGATE to every adventure, get turn-by-turn directions so you don't get lost on the way (unless you want to).

START your car from afar, get your engine running, unlock your door or flash your headlamp. Just using your smartphone with the Uconnect® app.

APPLE CARPLAY™ COMPATIBILITY

This is smarter iPhone® integration, so you'll experience your favorite features through your dashboard. With Siri®, all you have to do is ask—catch up on calls and messages, get directions from Apple Maps, or request a song through Apple Music.

The system lets you browse music, or discover nearby gas stations, parking, restaurants and more. Plus, Maps help predict where you're headed.

ANDROID AUTO™ INTEGRATION

For those who know and love Android™, Google™ goes with you: with navigation and "OK Google" voice detection, you'll hear your favorite Google Play music and get voice-guided navigation from Google Maps. Stay focused and productive while on the road with voice controls⁹ that allow you to make calendar appointments, set timers, reply to emails and messages, and more.

WORLD

harman |ardon

SMARTER, FASTER AND MORE ADVANCED CONNECTIVITY KEEPS YOU IN TOUCH WITH THE PEOPLE AND JOBS THAT MATTER MOST

CUSTOMIZED BY YOU

This is powerful, user-friendly technology that delivers a premium and all-new level of entertainment, communications, comfort and convenience—and which brings together a wealth of technologies. The latest generation of the award-winning Uconnect® system encompasses everything from built-in cellular connectivity to personalized settings for available features like heated/ventilated seats and more. Keyless Enter 'n Go™ and the available 12-inch reconfigurable touchscreen with one-touch, customizable "Home Screen" is available on some trims levels.

THIS IS COMMAND CENTRAL

FULLY CONFIGURABLE DRIVER INFORMATION DISPLAY

Depending on the trim level, the Driver Information Display measures in with 7-inch display. In select models, this color display telegraphs reams of information, from speed to numerous in-motion data concerning mechanical operation. On premium models, the display offers high-definition quality, animated 3D graphics, with five display themes and distinctive illuminated RAM identity. The 7-inch display is also model-specific. On Ram Rebel® models, there's a Rebel-only theme with a Red-lit badge contrasting with the Gray and Dark Ruby Red accents. The Ram Longhorn® display carries the Longhorn theme in subtle Gold tones against a dark background, while the Ram Limited display keeps the Limited theme: muted Violet and Light Gray on a darker background.

EASY-ACCESS CONNECTIVITY, WIRELESS CHARGING, FAST USB CONNECTIONS

Ditch the inconvenience of wires and opt for wireless phone charging. Simply set your phone on the console-mounted pad to begin charging.

Two sets of USB/Type-C USB ports are located on the front of the center console. The new Type-C USB ports enable charging up to four times faster than standard USB outlets, as well as faster data downloads. An auxiliary port is positioned between the USB outlets. An integrated phone shelf can carry as many as three smartphones vertically and is sized to carry most tablets.

PREMIUM SPEAKERS

Only Harman Kardon® could do it—and only the Ram 1500 offers it: a custom-tuned, available system that makes every drive more enjoyable. Technology never sounded so good.

With 18 premium speakers plus a premium subwoofer strategically engineered within the cabin, the Harman Kardon® Audio System also features available Active Noise Cancellation, a refinement that uses the system to cancel out unwanted noise—and which contributes to a superb audio experience when music is played. It's all powered by a 900-watt multi-channel Class-D amplifier made even better with 360° Surround Sound and Digital Signal Processing.

REINMAGINED FRONT CENTRAL CONSOLE

Drivers of RAM 1500 models equipped with bucket seats will enjoy a next generation level of convenience and technology with a center console designed around occupant comfort and need.

Now more than 50% larger than the previous generation, this dynamic piece of equipment offers dozens of functions and conveniences, starting with numerous different storage combinations. In the center, our engineers have designed a wider docking area with optional wireless charging—ideal for cell phones. A three-position sliding cup holder tray can be stowed under the center armrest, revealing a deep storage bin that can hold a 15-inch laptop.

Lifting the lid of the center armrest also reveals an additional rubber-lined storage bin, perfectly sized to fit a tablet. At the rear of the console, you'll find two additional cup holders, media outlets and the ability to mount an iPad[®] for convenient rear-seat viewing.

RECONFIGURABLE CENTER CONSOLE

*LARGER. MULTI-FUNCTIONAL. CHARGE-READY. AND MORE VERSATILE THAN EVER.

SMART STORAGE

EVERYWHERE

NEXT-LEVEL CARGO MANAGEMENT

This truck takes on any challenge, including finding a smarter, more efficient way to organize your cargo. From a maximum 1,741 l conventional cargo bed volume to the available RamBox® Cargo Management System that includes versatile, weatherproof, lockable and drainable storage bins with downward-facing illumination and a 115-volt power outlet in the driver's side bin, this is real-world capability.

- A 4X8 SHEETS FIT** Even with the RamBox® System, full 4x8 sheets of building material are easily accommodated.
- B EASY ACCESS** Available dampening and key fob control make opening the tailgate easier than ever. Available retractable Mopar® Bed Step simplifies bed access. Foot-controlled for use or to tuck it back under the bed.
- C IN-BED LED LIGHTING** Controlled by a switch or a key fob button, these available lights let you load any time, with no adjustment to a tonneau cover (if so equipped).
- D BED UTILITY GROUP** All the models includes spray-in bedliner. On selected models RAM offers bed utility group that includes a cargo rail system with four adjustable tie-down loops and a deployable bed step. The models with Rambox are equipped with a bed divider. Even with the RamBox®, two full-size europaletts are easily accommodated with the tailgate closed.

ALL-NEW KEY FOB

Available features operate doors and RamBox® System locks, release the tailgate, lower the Air Suspension mode and offer the convenient Remote Start®.

Properly secure all cargo.

Properly secure all cargo.

Properly secure all cargo.

DISCOVER THE ADVANTAGE OF THE MULTI-FUNCTION TAILGATE

KEEP YOUR OPTIONS OPEN

It has everything a traditional tailgate has, plus split-door flexibility. The 60/40-split, swing-away doors give quick access to the cargo bed without having to lean over a traditional tailgate—even while trailering. When the job calls for it, the multifunction tailgate provides a traditional tailgate that easily handles up to 907 kg. Bed step deployable with multi-function tailgate available as accessory.

BIG HORN BACKCOUNTRY

RUGGED & REFINED

The great outdoors calls, and BackCountry is the answer. With rugged off-road, exterior and interior enhancements, you can take on the wilderness with confidence. Equipped with rugged 18-inch black wheels, all-terrain tires, an E-locker rear axle, heavy-duty shocks, skid plates, tri-fold tonneau cover and more, BackCountry was built for impressive off-road capability.

Exterior details—like badges, headlamp bezels, mirror caps, exhaust tips and more—are outfitted with a sinister black finish. A body-color grille surround with black mesh insert, black two-tone exterior paint, RAM grille badge, and black tow hooks ensures BackCountry stands out from other Ram 1500 models.

START YOUR OWN REBELLION

HONOR THE OFF-ROAD

This is your path to epic off-road experiences. Ram Rebel® doesn't just look fierce, it is fierce. Black powder coated steel bumpers, aggressive approach angles, tow hooks and factory lift give you the confidence needed to find new trails.

A new electronic locking rear axle (eLocker), 18-inch aluminum off-road wheels and On/Off Road 32-inch tires with outlined white lettering.

REBEL

LARAMIE®

LUXURY IS JUST AROUND THE CORNER

With its all-new exterior and interior, Ram 1500 Laramie® makes a statement like no other. Outside, look for a new raised aluminum hood, LED headlamps, pushed-to-the-corner LED fog lamps, chrome billet grille with chrome surround, chrome front bumper, aluminum tailgate with dampened opening assist and a standard Class IV hitch receiver.

The redesigned interior features all-new technology and premium materials, including leather-trimmed and suede-accented seats with standard front bench or available bucket front seats, a 6-gauge reconfigurable color cluster, leather-wrapped steering wheel, wood accents, a premium overhead console and new available reclining rear seats. The picture shows Laramie Black.

G/T PACKAGE

PERFORMANCE ENTHUSIASTS. TAKE NOTE

Each G/T model comes packed with performance and technology features standard from the factory. A Cold-End Exhaust system ensures optimal breathability for impressive performance and sound. Under the hood, you'll find a massive cold air intake, designed to maximize power generation. Performance-inspired aluminum paddle shifters are integrated behind the new leather-wrapped steering wheel. Performance takes center stage with a distinctive console-mounted performance leather-wrapped floor shifter—inspired by Ram TRX. Featuring the G/T logo near each headrest, the performance-bolstered, 12-way power, heated and ventilated front bucket seats help keep you and your passenger planted in place.

READY FOR ANY DESTINATION ON THE MAP

The Ram 1500 Longhorn® speaks with authority with a standard 5.7 HEMI® V8. The redesigned exterior includes refinements like a shark's fin antenna, new flush fuel-fill door, taller pickup box and chrome side steps, all riding on 22-inch aluminum wheels.

The Longhorn® interior is premium all the way, with leather-upholstered bucket seats with power/12-way memory, new sliding console storage, premium 6-gauge cluster, 7-inch Driver Information Display, Uconnect® NAV with 12-inch display, three USB ports and new reclining rear seats.

LIMITED

LEVEL UP TO LUXURY.

This Ram pickup can be defined by both its capability and its sophistication. There are bold new interior themes and extensive use of genuine wood, metal and leather throughout. Available features include a new reconfigurable center console, a new 12-inch touchscreen media center with split-screen capability, a 7-inch reconfigurable electronic cluster and features like a rear-seat fold-down center console.

Opt for premium trim levels with soft, upscale leather trim and available features like heated/ventilated front and rear seats. Select Crew Cab models can also be equipped with new reclining rear seats featuring 8° recline. The Ram 1500 Limited boasts a corrugated mesh grille and stylish chrome accents, advanced technology and an interior crafted for exceptional content and comfort.

**LIMITED
10TH ANNIVERSARY**

A NEW LEVEL

Layered in premium materials, unique technology and a legendary nameplate, the Limited 10th Anniversary Edition celebrates a decade of Ram luxury truck leadership. Inside, an exclusive 10th Anniversary badge commands attention atop the quilted leather-wrapped center console. A unique 10th Anniversary graphic appears on the gauge cluster screen upon start up, accented by satin aluminum trim rings. Inside, you'll find an exclusive new indigo and sea salt gray color scheme, boasting quilted leather-wrapped seats and door inserts, plus suede accents throughout the cabin. An exclusive jeweled-texture shifter cap provides an elevated experience at each touch. The celebrated multifunction tailgate comes standard, for easy access to and adaptability for various cargo.

TRX

**RUGGED
YET REFINED**

THE NEW STANDARD BEARER

Equipped with 6.2 Supercharged HEMI® V8 unleashes 523 kW and 881 N·m of torque. Paired with a TorqueFlite® 8-speed automatic transmission, TRX delivers a 4.5-second 0 - 97-km/h time and top speed of 160 km/h, only limited by the tires.

RAM engineers fortified components, upgraded mechanics and maximized the powerplant to give this Ram truck everything it needs to deliver a different level of capability. TRX is designed to be the ultimate high-performance, sandstorming full-size pickup.

Skilled off-roading requires keeping tabs on your vehicle's components, systems and performance. TRX is loaded with technology that keeps you in control and in command of ever-changing terrain—like Performance Pages that lets you monitor and download performance stats. Off-Road Performance Pages shows transfer case position, accessory gauges, and pitch and roll.

Official European Importer

KLINTBERG & WAY AUTOMOTIVE IS THE LEADING COMPANY FOR DODGE AND RAM TRUCKS COMMERCIAL OPERATIONS IN EUROPE.

A world made of passion, experience and competence. Our mission is to provide every dealer in the KWA network, the best tools to serve the best customers for a real American truck experience.

KWA, Born to RAM.

Info at www.kwauto.com

KWA SERVICES

Full Warranty program for your RAM provided by KW Warranty - part of Klintberg & Way group: **2 years/100.000 km** in all Europe. Available extended warranty program. **Just relax and enjoy your vehicle.**

KWA Technology Center is the Klintberg & Way Automotive Technical Center developing high standard solutions to convert and homologate American cars to European markets.

Original spare parts and special parts: 85.000 items in stock and additional 3 million items from global network with fast delivery thanks to the partnership with **KW Parts**, General Motors NAV and **Mopar** Authorized Spare Parts Distributor and Europe's largest spare parts wholesaler of US auto parts (seat: Haukadalsgatan 5, 164 40 Kista - Stockholms Ian - Sweden). **Increase the appeal of your RAM pick-up with improved performance and customized aesthetics.**

Full technical assistance, Document Management and digital archive of all documents related to customer's vehicle (DMS), safety recalls, infotainment updates and the highest-quality homologated transformation. With in-house experience, experts and tools: **KWA Technology Center** at your service.

Turn-key solutions for customer's benefits: LPG solution powered by Prins - market leader in Alternative Fuel systems - available on RAM full lineup and Dodge Durango. Installed by KWA Technology Center.

Stay in touch with RAM. Visit us on our website www.kwauto.com and KWA Facebook and Instagram pages. Initiatives, events, special issues, and the extraordinary RAM truck world.
